

Robertson Electric is pleased to announce the newest member of our Senior Leadership Team, GTA Sales Manager Andrew Kirk.

Andrew is an enthusiastic leader, a great communicator, and a personable sales professional with a proven track record in consultative selling.

Andrew began his career in the electrical industry working nearly 5 years for Sheridan Electric Services - an electrical contractor based in Mississauga.

Andrew then went on to work for Hubbell Canada where he spent 13 years as a field sales professional and was eventually promoted to the GTA district sales manager in 2020.

Andrew has a long tenure in the electrical industry with experience at the manufacturing, wholesale distribution, and electrical contracting levels.

He has a great ability to generate new leads, establish long-term customer relationships and help build a strong team culture.

Please help me welcome Andrew to the Robertson Electric Wholesale team and wish him success in his role.
