

Press Release

Leviton Canada Broadens CSA Enterprises Representation to Cover More Leviton Product Lines in the Atlantic Provinces

POINTE-CLAIRE, QC, December 1, 2025 – Leviton Canada is proud to announce the expansion of its partnership with CSA Enterprises Ltd., who will now represent a comprehensive line of Leviton products across the Atlantic provinces, effective December 1, 2025.

This milestone builds on the successful collaboration that began in January 2024, when CSA Enterprises joined forces with Leviton to represent our Load Centers and Breakers product line. Over the past year, CSA has demonstrated exceptional market insight, customer engagement, and a deep commitment to delivering value to our shared clients.

With this expanded representation, CSA Enterprises will now offer Leviton's Residential, Commercial and Industrial, as well as Lighting Controls products. Their comprehensive coverage and strong regional presence position them to drive growth and deliver best-in-class service across the Atlantic region.

"We are thrilled to deepen our relationship with CSA Enterprises," said Nick Foster, Sales Director for the Atlantic provinces. "Their professionalism, product knowledge, and customer-first approach make them an ideal partner. We look forward to the continued success and innovation this expanded partnership will bring."

Leviton Canada is excited about the future and confident that CSA Enterprises will play a pivotal role in expanding our reach and impact in the Atlantic provinces. We look forward to what they will accomplish in this next chapter of our partnership.

About Leviton

Every day, Leviton is engineering possibilities that make the future happen, meeting the needs of today's residential, commercial, and industrial customers globally. From electrical, to lighting, to data networks, and energy management, Leviton develops thoughtful solutions that help make its customers' lives easier, safer, more efficient and more productive. Driven by its commitment to its customers, the ingenuity of its employees and the safety and quality of its products and solutions, with Leviton, the FUTURE IS ON.
